

**RISK RATING**

1 — 2 — 3 — **4** — 5

**MINIMUM INVESTMENT HORIZON (YEARS)**

1 — 3 — 5 — **7** — 7+

**INVESTMENT STRATEGY**

The primary objective of the Fund is to provide a balance between capital preservation and capital growth over the full investment cycle in local currency terms with a reduced level of volatility. The diversified portfolio invests into a wide range of asset classes including cash, fixed income, high yield, equities, property and alternative investment strategies. As this portfolio is global in nature, exposure will be taken in a wide range of currencies and markets. The Fund is ideally suited to investors with a medium to high risk tolerance with an investment horizon of three years or longer.

**INVESTOR PROFILE**

The portfolio is suited for investors who are looking for direct offshore exposure and returns in US dollars. Investors should have a moderate to high risk profile and an investment time horizon of at least 7 years. The portfolio is not designed to provide regular income withdrawals but rather for long term capital growth in global terms. Investors should expect and be able to withstand moderate short-term volatility.

# CELERITY GLOBAL BALANCED FUND A (USD)

## ANNUAL FEES AND CHARGES

Calculation Period: 30/09/2023 to 30/09/2024

<b>Total Expense Ratio (TER)<sup>1</sup></b>	1.33%
<b>Management Fee<sup>2</sup></b>	0.30%
<b>Sub-Investment Management Fee<sup>3</sup></b>	0.40%
<b>Custodian Fee<sup>4</sup></b>	Up to 0.05%
<b>Directors' Fee</b>	USD 10 000
<b>Initial Fee</b>	0.00%
<b>Performance Fee</b>	N/A

<sup>1</sup> The Total Expense Ratio (TER) is the percentage of the net asset value of the class of the Financial Product incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. A current TER may not necessarily be an accurate indication of future TERs. Cost ratios are calculated using historical actual and/or estimated data and are provided solely as an indication/guide as to the annual expenses/costs that could be incurred. These ratios do not represent any current/actual charges or fees.

<sup>2</sup> The Investment Management and Administration Fees are settled out of this fee. The Management Fee is subject to a minimum of USD 30 000 p.a.

<sup>3</sup> An Investment Advisory Fee of 0.10% p.a. is settled out of the Sub-Investment Management Fee

<sup>4</sup> The Custodian Fee is subject to a minimum of USD 8 000 p.a. A Custodian fee of USD 25 is charged per transaction

## CELERITY GLOBAL BALANCED FUND A (USD)

### Risk warnings and important information:

Past performance is not indicative of future returns. The Fund performance is calculated on a total return basis, net of all fees and in USD terms. NAV to NAV figures have been used for the performance calculations. The performance is calculated for the Fund. The individual investor performance may differ, as a result of various factors, including the actual investment date. Investment performance calculations are available for verification upon request. Annualised returns are period returns re-scaled to a period of 1 year. This allows investors to compare returns of different assets that they have owned for different lengths of time. Actual annual figures are available to investors upon request. Since inception figures are since inception of the strategy. Current asset allocation figures reflect the strategy classification of the collective investment schemes (or similar schemes) held by the Fund and do not look through to the underlying holdings of such schemes. All returns in USD, unless stated otherwise.

Collective investments are generally medium to long-term investments. The value of units may go down as well as up and past performance is not necessarily a guide to the future.

Collective investments are traded at ruling prices. Commission and incentives may be paid and, if so, would be included in the overall costs. All performance is calculated on a total return basis, after deduction of all fees and commissions and in US dollar terms. Forward pricing is used.

The Fund invests in other collective investments, which levy their own charges. This could result in a higher fee structure for the Fund.

Fluctuations in the value of the underlying funds, the income from them and changes in interest rates mean that the value of the Fund and any income arising from it may fall, as well as rise, and is not guaranteed.

Deductions of charges and expenses mean that you may not get back the amount you invested.

The fees charged within the Fund and by the managers of the underlying funds are not guaranteed and may change in the future.

Higher risk investments may be subject to sudden and larger falls in value in comparison to other investments. Higher risk investments include, but are not limited to, investments in smaller companies, even in developed markets, investments in emerging markets or single country debt or equity funds and investments in high yield or non-investment grade debt.

Notwithstanding ongoing monitoring of the underlying funds within the Fund, there can be no assurance that the performance of the funds will achieve their stated objectives.

The Fund will contain shares or units in underlying funds that invest internationally. The value of an investor's investment and the income arising from it will therefore be subject to exchange rate fluctuations.

Foreign securities may have additional material risks, depending on the specific risks affecting that country, such as: potential constraints on liquidity and the repatriation of funds; macroeconomic risks; political risks; foreign exchange risks; tax risks; settlement risks; and potential limitations on the availability of market information.

The Fund may contain shares or units in underlying funds that do not permit dealing every day. Investments in such funds will only be realisable on their dealing days. It is not possible to assess the proper market price of these investments other than on the fund's dealing days.

No borrowing will be undertaken by the Fund except for the purpose of meeting short term liquidity requirements. Borrowings will not exceed 10% of the net asset value of the Fund. For such purpose, the securities of the Fund may be pledged. No scrip borrowing will be allowed. The Fund is not permitted to enter into any form of borrowing or loan arrangement with other funds of the Company nor other collective investment schemes of the Manager.

While derivative instruments may be used for hedging purposes, the risk remains that the relevant instrument may not necessarily fully correlate to the investments in the Fund and accordingly not fully reflect changes in the value of the investment, giving rise to potential net losses.

Forward contracts are neither traded on exchanges nor standardised. Principals dealing in these markets are also not required to make markets in the currencies they trade, with the result that these markets may experience periods of illiquidity. Banks and dealers will normally act as principals and usually each transaction is negotiated on an individual basis.

The Manager has the right to close the Fund to new investors, in order to manage it more efficiently, in accordance with its mandate.

Investment in the Fund may not be suitable for all investors. Investors should obtain advice from their financial adviser before proceeding with an investment.

Investors are reminded that any forecasts and/or commentary included in this MDD are not guaranteed to occur, and merely reflect the interpretation of the public information and propriety research available to the Investment Manager and / or Sub-Investment Manager at a particular point in time.

This report should be read in conjunction with the prospectus of Momentum Mutual Fund ICC Limited and the supplement, in which all the current fees and fund facts are disclosed.
